

Mike Majmundar, MD

PHYSICIAN PROFILES

Congratulations to Dr. Mike Majmundar for being named one of Atlanta's Top Doctors for the fifth year in a row! Dr. Majmundar considers this the top honor any doctor can receive, as only other doctors vote for Top Docs and only 1 percent of doctors make this list.

Dr. Majmundar measures his success by the number of patients who refer their family and friends to him for cosmetic procedures. Focusing on a natural appearance, Dr. Mike dedicates his time to understanding his patients' desired outcome. Realizing that cosmetic surgery is a very personal decision for his patients, he considers the consultation one of the most important steps in the process prior to procedures. His years of experience, advanced surgical approach, and artful skill with injectables produce natural results and extremely happy patients. He continues to be the artist behind many beautiful faces in Atlanta.

Considering himself to be an Atlanta native, having lived here since age two, Dr. Majmundar's practice is unique in that it focuses exclusively on plastic surgery of the face and neck. As a fellowship-trained and double-board-certified facial plastic and reconstructive surgeon, his approach to facial aesthetics promotes healthy skin, youthful contours, and natural results.

He was recently voted Best in Atlanta in the Botox and injectables category; Best Plastic Surgeon for Faces by *Best Self Atlanta Magazine*; Best of Plastic and Cosmetic Surgery by *Plastic Surgery Practice* magazine; one of America's Top Doctors by *U.S. News & World Report*; and, for the fifth year in a row, he is listed on Castle Connolly Medical Limited's prestigious list of Top Doctors.

Above all of these accomplishments, he considers the most rewarding his foundation, Second Chance Surgeries, a charity devoted to treating cleft lip and palate deformities in under privilege children.
